RE: Notification to Potential Consulting Parties of the Archeological Data Recover Plan in Support of
Moffett Field Airfield

Dear Jonathan Ikan,

I'm writing on behalf of the Indian Canyon Mutsun Band of Costanoan Ohlone People to request that NASA records that we are responding and stating that area is of ancestral significance, there are numerous recorded sites. We are definitely concerned and want to be consulted about any updates with this project.

Per NAGPRA/CEQA/Section 106 we recommend that if there will be any ground disturbance or disruptive surveying in these areas that a Native American Monitor and Archeologist be On-Site.

miSmin Tuuhis - Good Day,

Kanyon Sayers-Roods
