*Required information
This Cold War-era building is considered a support building, a type found at any Naval installation regardless of mission. It is therefore not of exceptional national significance and is not considered eligible for the National Register of Historic Places (Criterion G).
Building 958 is a pre-fabricated metal open storage shed supported on four metal tapered legs. The gable roof is constructed of ribbed metal. Its sides are enclosed by a chain link fence.
B10. Significance: Theme Cold War Area United States
Period of Significance 1946-1989 Property Type Military Applicable Criteria G

This Cold War-era building is considered a support building, a type found at any Naval installation regardless of mission. It is therefore not of exceptional national significance and is not considered eligible for the National Register of Historic Places (Criterion G).

Date of Evaluation: 05/01/1998

(This space reserved for official comments.)
Building 992 is a pre-fabricated corrugated metal building with a corrugated metal gable roof. The roof slope on the north side, supported on metal posts, overhangs the building to provide open shelter. Fixed and transom multi-paned windows in metal sash are located on the north and south sides. Metal double sliding doors provide access on the east and west sides. A metal single door with a glass upper pane is located on the south side.

Building 151 is a small rectangular flat-roof prefabricated metal building on a concrete slab foundation. It houses two pumps that are attached to a large water tank. Sliding windows in metal sash light the north and west sides, and a metal single door provides access on the east side. The adjacent well pumped the water into the tank. From there the water traveled by gravity flow to pump water for normal use throughout the base or to pump water for fire.
Resource Name or #:  151. NASA Crows Landing

B1. Historic Name: Unknown
B2. Common Name: Unknown
B3. Original Use: Water Storage Tank; Pump House

Building 168 consists of two double-wide quonset huts linked by an entrance on the south side. A plywood shed addition extends to the north. The foundation and end walls are concrete block, and the rounded roof is corrugated metal. The main entrance on the south, with aluminum and glass windows, is protected by a wood canopy supported on a brick pier wall. The doors and windows are glass in aluminum frames. Brick sheathing has been applied to the west side.
